2024 WEBINAR SERIES: The Intersection of Technology & Demand for Human Trafficking

Session No. 1
The Technology Challenge: Current Trends

Wednesday, Oct. 30 @ 2 p.m.
Experts from NCMEC and HSI will describe current trends and tactics regarding how technology is being used to access, groom and exploit victims..

Session No. 2
Reducing the Threat

Wednesday, Nov. 6 @ 2 p.m.
Invictus Project's Ray Dawson will explain how they are using technology to find and arrest online predators. Representatives from Street Grace will show us how they are using AI to communicate with buyers and gather actionable evidence for law enforcement.

Session No. 3
Peer to Peer Insights
Wednesday, Nov. 13 @ 2 p.m.

NC direct service providers will describe the trends they are seeing regarding the use of technology to exploit others.

Session No. 4
Legislative Partnerships

Wednesday, Nov. 20 @ 2 p.m.
In our final session, national legislative advocates will highlight legislation that has recently passed or is being discussed that aims to prevent technology-assisted exploitation.
